EQUITY UPDATE

- Nifty-50 declined by 2.5% in August 2023, whereas the mid-cap and small-cap indices outperformed large-cap indices and were up by 3.7% and 4.6%, respectively.
- Sector-wise, oil & gas (-5%), banks (-4%) and FMCG (-2.7%) declined the most, whereas consumer durables (+4.2%), IT (+2.7%) and capital goods (+2.7%) gained the most.
- Globally, almost all markets ended in red. Hong Kong, Shanghai and Brazil were down by 8.5%, 5.2% and 3.6%, respectively

Global Macros

- Jackson Hole Speech:** Higher for longer was the key takeaway from the Jackson Hole speech which led to money markets again repricing when rate cuts are meant to commence with the timeline now pushed back to May, July and September next year in the cases of America, Eurozone and Britain. With European Central Bank (ECB) and Bank of England (BoE) more rate hikes are expected. Money markets anticipate one more 25bps rate hike by the ECB by March 2024 and another 60bps of rate hikes by the BoE by February 2024. The early indicator of US inflation which is the core Personal Consumption Expenditure inflation came in on expected lines at 4.2% YoY much higher than Fed's 2% inflation target. Oil was broadly flat up 1% MoM.
- China's economy is slowing down:** China's economic growth is slowing down as policymakers try to fix a property market downturn. Moreover, demand for Chinese exports has been softening as key trading partners have been grappling with rising living costs. And with 70% of Chinese household wealth tied up in real estate, a big slowdown in the sector is trickling through to other parts of the economy.
- Bond yield:** The US 10-year bond yield increased to 4.11% as on August 31, 2023, from 3.96% as on July 31, 2023.
- Crude:** Brent crude spot price increased to US\$87.4/bbl as on August 31, 2023 from US\$85.6/bbl as on July 31, 2023

Domestic Macros

- GST Collection:** GST revenue collection in the month of July 2023 was at Rs 1.6 lakh crore, up by around 11% on an annual basis. With this, the monthly GST revenues has remained over Rs 1.4 lakh crore for 18 months in a row.
- Credit Growth:** As per latest RBI data, system credit growth stood at 19.7% YoY (14.9% YoY excluding the impact of the HDFC-HDFC Bank merger) for the fortnight ended August 11, 2023.
- Inflation:** July 2023 Consumer Price Index inflation spiked up to 7.44% (4.81% in June 2023) and also increased sequentially by 3% led by vegetables (mainly tomato prices), cereals, fruits, and pulses. July 2023 Wholesale Price Index inflation was at (-)1.4% against (-) 4.1% in June 2023 led by higher food prices amid continued softening in commodity prices.
- Currency:** USD-INR has depreciated to Rs 82.79/US\$ (as on August 31, 2023) from Rs 82.25/US\$ (as on July 31, 2023) amid recovery in Dollar strength. On an average, however, the INR has depreciated by 0.8% against the US\$ in August 2023.
- Monsoon:** India witnessed deficient rainfall in the month of August and it stands at 32% below long period average (LPA) compared with a 13% (above LPA) surplus rainfall received back in July 2023. Against this, for the cumulative period, rainfall is down by 8% below LPA. Overall Kharif sowing has inched up marginally with much higher acreage in rice. However, pulses sown area continue to lag for the same period. Below normal rains have been witnessed in Central, Southern Peninsula and Eastern region. The impact of this scanty rainfall is likely to be reflected through higher prices in the coming months.

Regulatory, policy and market developments

- Equity trading trends:** FPIs bought US\$1.4 billion (until August 30, 2023) of Indian equities in the secondary market, whereas DIIs bought US\$3 billion (until August 31, 2023).
- Nifty 1QFY24 earnings - In-line; BFSI and Auto sectors drive the quarter:**
 - Nifty posted 22/32% EBITDA/PAT growth in 1QFY24. The earnings have been in-line and was once again propelled by domestic cyclicals, such as BFSI and Auto sectors.
 - BFSI sector recorded a 60% YoY profit growth while Auto sector posted a significant profit of INR 179 billion (vs. a profit of INR 13 billion only in 1QFY23).
 - Oil and Marketing Companies (OMCs) profitability surged to INR 305 billion in 1QFY24 vs. a loss of INR 185 billion in 1QFY23 due to strong marketing margins. Ex-OMC, Nifty's earnings rose 19% YoY.
 - Metals continued to drag the aggregates with a 40% YoY decline in earnings.

Sectoral summary

- Technology:** IT Services companies reported weak performance in 1QFY24 with flattish median revenue growth QoQ in constant currency, in an otherwise seasonally strong quarter. The weakness in key verticals continued through 1Q with BFSI and Retail sectors reporting a median USD revenue decline of 1.2% and 0.4% QoQ, respectively.
- Banks:** The banking sector posted a mixed 1QFY24, driven by healthy loan growth and sustained improvement in asset quality; however, margin trajectory reversed due to a sharp rise in funding costs.
- Automobiles:** The quarter saw upgrades for FY24E largely to factor in the benefits of better gross margin, thus aiding overall profitability and commentaries related to a sequential improvement in exports.
- Consumer:** Aggregate sales stood in line with estimates, but EBITDA/PAT exceeded expectations led by correction in commodities. The aggregate FMCG sector posted muted YoY volume growth.

Chart of the month: Real interest rates are now mean reverting led by rate hikes + moderation in inflation

Outlook

- Seasonally strong period ahead:** Indian economy, typically fairs better in 2H of financial year, given the multiple festive occasions. Weak monsoon in August 2023 could be an interim dampener. This year too, the seasonality should play out, in our view. Further, given the general elections next year, it will be busy on the news flow front. As an investor, we continue to focus on the datapoints, which for now appears to be strong.

Strong Steel production (+13.8%) and cement (+7% YoY) - indicating good construction / capex trends.

Primary property sales were +20% by volume in June 2023. Housing stats have kept climbing and are now at a 12-year-high.

Rural trends holding up, although weak rainfalls until now. Tractor sales +6%YoY, was +2% MoM. Monsoon season rainfall has turned adverse in August 2023, with cumulative rains -8% vs. normal, with 75% season by rainfall quantum done. Rainfall distribution appears normal with 80% of the country seeing normal or excess rains - reflected in the summer crop sown area which is +1% YoY.

Domestic/International air traffic stayed strong at 24%/19% YoY respectively.

Credit data for banks/overall (i.e. including bonds) has stayed robust at 14% YoY in July/June 2023 respectively.

- Cyclical rebound helping India:** Equity markets have faced 4 consecutive shocks in the last 2 years in the form of 1) COVID, 2) High inflation (disruption in global supply chains), 3) Geopolitics (Russia-Ukraine war) and 4) Sharp rise in interest rates. Indian economy has been able to withstand these shocks relatively better vs other economies. This is led by a) Cyclical upturn in many sectors (Real estate, Auto, Banking, Telecom etc), b) Manufacturing tailwinds led by China+1 & PLI, c) Capex recovery (India Inc. Balance Sheets have strengthened) and d) Consolidation (formalization).
- Key things to watch out are:** (a) Oil price trend, (b) rate trajectory by the central banks, (c) Russia-Ukraine war and its impact on global supply chain and (d) Risk of El Nino on monsoons.
- Over the medium term:** We continue to remain constructive on equities and believe India is on the cusp of achieving robust growth over the next few years. Higher capex provisioning and benefits from PLI (potentially can add 1.5% to GDP over the next 5 years) could potentially revive overall capital expenditure across the sectors, boost employment as well as credit growth.
- Valuation and view:** India's medium to long term growth prospects remain strong. While markets are at fresh all-time highs, valuations are reasonable at ~19x on FY25 earnings. While domestic macro gives support at a broader level, at a sectoral level several financials, select autos, and pharma trade at a discount to historical average valuations.

DEBT UPDATE

Executive Summary

The global economy is slowing and growth trajectories are diverging across regions amidst moderating but above target inflation, tight financial conditions, simmering geopolitical conflicts, and geo-economic fragmentation.

For India, there are two factors which could pull industrial performance down in the coming months. First being slowing global economy, which is already impacting exports. The second, monsoon- if its performance is sub-par. Monsoon is, therefore, a key monitorable from the perspective of food inflation, as well as for monetary policy decisions.

Global Macros

The global economy continues to face daunting challenges of elevated inflation, high levels of debt, tight and volatile financial conditions, continuing geopolitical tensions, fragmentations and extreme weather conditions. Belying earlier apprehensions, a number of economies have demonstrated remarkable resilience and the grim prospects of hard landing

appear to have receded. Headline inflation is easing unevenly across countries and remains above the target in major economies. While the pace of monetary tightening has been scaled down, policy rates could stay higher for longer.

August 2023 was quite loaded as several central banks took monetary policy decisions and GDP numbers for Apr-Jun 2023 quarter came out. Among other data points, China became focus due to slowing economy.

The consumer price inflation (CPI) across major global economies was a mixed bag for the month of July-23. For US the CPI came marginally higher at 3.2% vs 3% for Jun-23. For UK CPI fell to 6.8% as against 7.9% for Jun-23. Eurozone CPI was stable at 5.3%. Whereas for China CPI stood at -0.3% the lowest print since Jan-21, vs a flat 0% for Jun-23.

In lines with CPI, US Personal Consumption Expenditure (PCE) inflation for July-23 firmed up in to 3.3% as against 3% in Jun-23.

While CPI was a mixed bag, growth indicated by gross domestic product (GDP) increased relatively from previous print but was still timid across global economies. UK GDP for Q2 grew relatively higher by 0.4%. US GDP for Q2 released lower at 2.1%. Eurozone GDP grew by 0.6% which was the weakest pace of growth since the 2020-21 period of recession due to a large drop in real incomes and surging interest rates.

China's slowing growth is sparking warnings of contagion. Concerns have intensified after the Chinese economy retreated into deflation, fuelling fears over soft consumption, a weakening currency, a shaky property sector and unsustainable levels of local government debt.

Resultantly, People's Bank of China (PBOC) unexpectedly cut its medium-term lending facility (MLF) rate by 15 bps to 2.5% in the background of growth slowdown coupled with issues in China's property and shadow banking sectors. The slowdown can be seen in Chinese Manufacturing PMI for Aug-23 as it remained in a contractionary territory at 49.7.

In this backdrop, US Treasuries witnessed a broad-based decline as weaker economic data weighed-in and markets now implying a 35% probability of rate hike in Nov-23. 10Y US treasuries were volatile in Aug-23 but ended up moving an inch higher than previous month end.

On the commodity side, Crude oil prices ended on the positive note on expectations that OPEC+ would keep supplies tight. Additionally, soft economic data from US cemented expectations that US Federal Reserve might keep rates on pause going forward. Copper prices slipped as the market hassled over demand in China and rising inventories at warehouses. Last year commodity price increased due to Russia-Ukraine war however, it mellowed throughout the

rest of 2022. With Chinese economy now slowing, commodity prices may pose downside risk. Slowdown in Chinese housing market could be a headwind for industrial metals. Additionally, expectation of disappointing economic data from US could weigh on copper prices.

The global economic landscape stands at a critical juncture where inflation is retreating while labor markets approach peak tightness. This intersection has significant implications for economies - while price pressures are receding, wage pressures are up. China's current economic challenges extend beyond the immediate post-pandemic dynamics, and have deeper and longstanding roots in its structural imbalances. Consequently, the Chinese economy is likely headed for a period of adjustments with growth slowing further in the coming years, adding to a decade-long trend of declining growth. The implications of China's current slowdown have extended beyond its borders and is already impacting other global economies tied to China through trade. However, the longer-term effects of China's slowdown may not be immediately evident.

Domestic Macros

The Indian economy is exuding enhanced strength and stability despite the massive shocks to global economy in recent years. The economy has continued to grow at a reasonable pace, becoming the fifth largest economy in the world and contributing around 15% to global growth. RBI Monetary Policy decision and vegetables induced inflation were the highlights of the month. Accented food inflation, primarily on account of vegetables, spike in tomato prices and further increase in prices of cereals and pulses have contributed headline inflation coming at 2023 high of 7.4%. Food prices induced surge in consumer price inflation was expected yet RBI decided a pause in the repo rate at Aug-23 monetary policy committee (MPC) meeting. The rationale for the same is the cumulative rate hike of 250 basis points undertaken by the MPC previously, is working its way into the economy as can be witnessed in transmission of interest rates. Considering this confluence of factors, the MPC decided to remain watchful and evaluate the emerging situation. Consequently, the MPC decided to keep the policy repo rate unchanged at 6.50% with preparedness to act.

Debt Outlook

Banking system liquidity has been much in surplus earlier, which was brought down by the RBI to a reasonable surplus. Recently, post the incremental cash reserve ratio (I-CRR) announcement on 10 Aug-23, system liquidity momentarily dipped into deficit.

This is pushing up the short end of the yield curve. Between 3-month T-Bill yield at approx. 6.7% and 1-year at approx. 7%, there is a moderate extent of steepness. However, from 1-year sovereign yield at approx. 7% and the longest end, 39 year, at approx. 7.3%, the curve is visibly flat. The flatness has been accentuated by the liquidity tightness driven by incremental CRR. Therefore, sovereign yields continue to remain range bound.

Mutual Fund investments are subject to market risks, read all scheme related documents carefully.

How to read a Mutual Fund Factsheet?

Know how your money is managed

The benefits of investing in mutual funds are well known. However, buying them on face value is not enough. Investors should know how their money is managed. They should research as much as possible on a scheme's strategy, performance, risks involved and how the money is invested. Many investors shy away from this exercise as they consider it cumbersome. To make life easy for investors, mutual funds disclose a fund factsheet which details the quintessential information required before investing.

The factsheet is a concise document with a plethora of information about how the fund is managed; it is disclosed on a monthly basis. This article tries to decode the factsheet and explains how investors should use it for making investment decisions.

Five things to look out for in mutual fund factsheets

Basic information

The factsheet provides all the general information on the funds its objective or philosophy, options (growth or dividend), plans (direct and regular), net asset value (NAV) of each plan, minimum investment amount, systematic features (SIP, SWP, STP) and assets under management (AUM) data.

It is important to know about the fund's exit load, as it gets deducted from total gains if the investor exits during a specific period after investment. It is a small penalty charged on prevailing NAV to discourage premature redemption. Different schemes have different exit loads, while few such as Overnight funds generally do not have exit load. Some funds have a fixed exit load and some have a tiered structure. For instance, a fund may have nil exit load if the investor withdraws up to 10% of units per year. For units more than 10%, it charges 3% for exit before 12 months, 2% for exit before 24 months, 1% for exit before 36 months and nil after that.

Investors should look out for the fund's product labeling and riskometer. Product labeling underlines product suitability for investors. It tells about ideal investment time frame required to benefit from the fund and where it invests. Riskometer is a presentation that helps investors measure the risk associated with the fund. It presents six levels of risks - low, Low to Moderate, moderate, moderately High, High and Very High. Since an equity fund typically has high risk involved, needle of the scale points towards moderately high /high, suggesting the fund is meant for investors with a high risk-taking appetite. Examples of equity and liquid funds are listed below:

Equity Fund

Product Labeling

This product is suitable for investors who are seeking:

- Growth of capital in the long term
- Investment predominantly in equity and equity-related instruments

Riskometer

The Benchmark is at Moderately High Risk

Debt Fund

Product Labeling

This product is suitable for investors who are seeking:

- Optimal returns in the short term
- Investment in portfolio of short duration money market and debt instruments

Riskometer

The Benchmark is at Low Risk

The data used is for illustration purpose only.

Performance aspects

Although the past performance does not guarantee future trend, investors can get a broad idea on how a fund may perform in future. This section looks at the fund's performance (lump sum as well as SIP) across time frames and compares it with the fund's benchmark and a

market benchmark. Many fund houses provide graphical representation of calendar year performance of funds along with standard SEBI prescribed performance tables.

The data used is for illustration purpose only.

Performance Report

Period	Returns (CAGR %)			Value of ₹10000 invested (in ₹)		
	Fund A Return	Scheme benchmark*	Additional benchmark**	Fund A Return	Scheme benchmark*	Additional benchmark**
Last 1 year	28.32	22.47	16.88	-	-	-
Last 3 year	21.81	14.17	9.77	-	-	-
Last 5 year	19.76	13.08	11.21	-	-	-

Add. Benchmark Return (%) (S&P BSE Sensex)	9.95%	9.31%	10.19%	7.02%	16.72%

The data used is for illustration purpose only.

Fund manager details

In an investment voyage, mutual fund is the ship and fund manager is the sailor. Success of the voyage depends on the manager's expertise. Hence, it is imperative to know the fund manager well.

The factsheet provides information on the manager's experience and qualification. You can find out their track record by reviewing the performance of all schemes managed by them.

Portfolio aspects

Key portfolio attributes to look for in equity/ hybrid funds

Asset allocation

It highlights the exposure to different asset classes - equity, debt and cash - in a portfolio.

The data used is for illustration purpose only.

Company and sector allocation

It informs investors about a fund's concentration level in sectors and stocks. An aggressive fund manager may have high concentration among fewer companies and sectors, which may not be appropriate for investors seeking diversification. Investors should check whether the fund has taken higher-than-prudent exposure to riskier sectors or low quality stocks.

Portfolio Top 10 holdings % Allocation

Company	% Allocation
Equity Shares	
HDFC Bank Ltd	7.05%
ICICI Bank Ltd	6.34%
Larsen & Toubro Ltd	3.96%
IndusInd Bank Ltd	3.81%
State Bank of India	3.79%
HDFC Ltd	3.72%
Maruti Suzuki India Ltd	3.38%
Infosys Ltd	3.17%
Kotak Mahindra Bank Ltd	2.93%
ITC Ltd	2.91%
Other Equities	53.77%
Equity Holding Total	94.83%
Cash & Other Receivables	5.17%
Total	100.00%

Allocation - Top 10 Sectors

Key portfolio attributes to look for in debt funds

Credit quality profile

A debt fund's holdings are classified according to its credit ratings such as AAA, AA+, A1+ (given by credit rating agencies), etc.

Funds with higher exposure to AAA (top rated long-term debt) and A1+ (top rated short-term debt) have lower credit risk and higher credit quality.

Conservative investors should check whether the fund manager in order to boost performance is taking undue exposure to lower rated debt papers as they typically trade at higher yields but are exposed to high credit and liquidity risk vis-à-vis top rated papers.

The data used is for illustration purpose only.

Instrument break-up

It highlights allocation to various debt instruments such as commercial papers (CPs), certificate of deposits (CDs), NCDs and bonds, gilts and cash equivalents.

Investors in shorter maturity debt funds such as liquid, ultra short term, short-term debt funds should check whether higher proportion has been allocated to shorter maturity instruments such as CPs and CDs. As long-term debt instruments such as gilts and bonds are typically more sensitive to interest rate changes compared with CPs and CDs, higher exposure to former instruments by liquid or ultra-short term may result in high risk.

The data used is for illustration purpose only.

Tax Reckoner

Snapshot of Income Tax rates specific to Mutual Funds

The Income Tax rates are applicable to financial year 2023-24 as per Finance Act, 2023
Income-tax implications on income with respect to units of Mutual Fund

Type of Investor	Resident***	NRI
Withholding tax rate	10%*	20%** or rate as per applicable tax treaty*** (whichever is lower)

* Tax not deductible if income in respect of units of a mutual fund is below Rs. 5,000 in a financial year.

** The base tax is to be further increased by surcharge at the rate of:

- 37% on base tax where income or aggregate of such income exceeds Rs. 5 crore;
- 25% where specified income exceeds Rs. 2 crore but does not exceed Rs. 5 crore;
- 15% where total income exceeds Rs. 1 crore but does not exceed Rs. 2 crore; and
- 10% where income or aggregate of such income exceeds Rs. 50 lakhs but does not exceed Rs. 1 crore.

In case investor is opting for 'New Regime' as mentioned on page 2, the rate of surcharge not to exceed 25%.

Further, "Health and Education Cess" is to be levied at 4% on aggregate of base tax and surcharge.

*** The income distributed by mutual fund to unitholders is unlikely to fall within the definition of dividend under the tax treaty. Given this and the language of the newly inserted provision to section 196A, claiming tax treaty benefit in respect of income distributed by mutual fund to unitholders for withholding tax purpose may not be possible.

**** As per section 139AA of the Income tax Act, 1961 ("the Act") read with rule 114AAA of the Income-tax Rules, 1962, in the case of a resident person, whose PAN has become inoperative due to PAN -Aadhaar not being linked on or before 30 June 2023, it shall be deemed that he has not furnished the PAN and tax could be withheld at a higher rate of 20% as per section 206AA of the Act. For linking PAN with Aadhaar after 30 June 2022, fees of Rs 1,000 thereafter has been prescribed.

CAPITAL GAINS TAXATION

	Individual/ HUF [§]	Domestic Company [@]	NRI [§]
Equity Oriented Schemes			
• Long Term Capital Gains (units held for more than 12 months)		• Short Term Capital Gains (units held for 12 months or less)	
Long term capital gains (Not applicable for specified mutual fund schemes - Note 2)	10%*	10%*	10%*
Short term capital gains (Including specified mutual fund schemes - Note 2)	15%	15%	15%
Other Than Equity Oriented Schemes			
• Long Term Capital Gains (units held for more than 36 months)		• Short Term Capital Gains (units held for 36 months or less)	
Long term capital gains (Not applicable for specified mutual fund schemes - Note 1)	20% [§]	20% [§]	Listed - 20% [§] Unlisted - 10%***
Short term capital gains (Including specified mutual fund schemes - Note 1)	as per your applicable tax slab	30% / 25% ^{^^} / 22% ^{^^^} / 15% ^{^^^}	30% [^]
Tax Deducted at Source (Applicable to NRI Investors)^f			
		Short term capital gains[§]	Long term capital gains[§]
Equity oriented schemes		15%	10%*
Other than equity oriented schemes (except specified mutual fund schemes)		30% [^]	10%*** (for unlisted) & 20% [§] (for listed)
Specified mutual fund schemes - Note 1		30% [^]	Not applicable

Note 1 - Capital gains from transfer of units of "specified mutual fund schemes" acquired on or after 1st April 2023 are treated as short term capital gains taxable at applicable slab rates as provided above irrespective of the period of holding of such mutual fund unit. For this purpose, "specified mutual fund" means mutual fund where not more than 35 per cent of its total proceeds is invested in the equity shares of domestic companies.

Note 2 - For "Fund of Fund investing in Domestic Equity ETFs", following provisions of Income Tax Act 1961, may be applicable on this scheme. As per the Section 112A of the Act, this scheme (which invest at least 90% in domestic equity ETF, where such ETF invest at least 90% in domestic equity shares) falls under the category of "equity oriented fund", however, as per the newly introduced Section 50AA by Finance Act, 2023, any "specified mutual fund", by whatever name called, where not more than 35 percent of its total proceeds is invested in the equity shares of domestic companies, any gains on transfer / redemption of units of such specified mutual funds acquired on or after 1 April 2023 shall be deemed to be short-term capital gains. A view may be adopted that sale of this scheme may be classified as "specified mutual fund" under the Act and should be taxable at the rate of 15% (plus applicable surcharge and cess). For further details, clarification and action, please consult your tax advisor.

* Income-tax at the rate of 10% (without indexation benefit and foreign exchange fluctuation) to be levied on long-term capital gains exceeding Rs. 1 lakh provided transfer of such units is subject to Securities Transaction Tax (STT).

§ Surcharge to be levied at:

- 37% on base tax where specified income*** exceeds Rs. 5 crore;
- 25% where specified income** exceeds Rs. 2 crore but does not exceed Rs. 5 crore;
- 15% where total income exceeds Rs. 1 crore but does not exceed Rs. 2 crore; and
- 10% where total income exceeds Rs. 50 lakhs but does not exceed Rs. 1 crore.

In case total income includes income by way of dividend on shares and short-term capital gains on units of equity oriented mutual fund schemes and long-term capital gains on mutual fund schemes, the rate of surcharge on the said type of income not to exceed 15%. In case investor is opting for 'New Regime' as mentioned on page 3, the rate of surcharge not to exceed 25%.

*** Specified income - Total income excluding income by way of dividend on shares and short-term capital gains on units of equity oriented mutual fund schemes and long-term capital gains on mutual fund schemes. Further, Health and Education Cess to be levied at the rate of 4% on aggregate of base tax and surcharge.

@ Surcharge at 7% on base tax is applicable where total income of domestic corporate unit holders exceeds Rs 1 crore but does not exceed 10 crores and at 12% where total income exceeds 10 crores. However, surcharge at flat rate of 10 percent to be levied on base tax for the companies opting for lower rate of tax of 22%/15%. Further, "Health and Education Cess" to be levied at the rate of 4% on aggregate of base tax and surcharge.

Short term/ long term capital gain tax (along with applicable Surcharge and Health and Education Cess) will be deducted at the time of redemption of units in case of NRI investors. Tax treaty benefit can be claimed for withholding tax on capitals gains subject to fulfillment of stipulated conditions.

& After providing indexation.

*** Without indexation.

^ Assuming the investor falls into highest tax bracket.

^^ If total turnover or gross receipts in the financial year 2021-22 does not exceed Rs. 400 crores.

^^^ This lower rate is optional and subject to fulfillment of certain conditions as provided in section 115BAA.

^^^^ This lower rate is optional for companies engaged in manufacturing business (set-up & registered on or after 1 October 2019) subject to fulfillment of certain conditions as provided in section 115BAB.

- Further, the domestic companies are subject to minimum alternate tax (except for those who opt for lower rate of tax of 22%/15%) not specified in above tax rates.
- Transfer of units upon consolidation of mutual fund schemes of two or more schemes of equity oriented fund or two or more schemes of a fund other than equity oriented fund in accordance with SEBI (Mutual Funds) Regulations, 1996 is exempt from capital gains.
- Transfer of units upon consolidation of plans within mutual fund schemes in accordance with SEBI (Mutual Funds) Regulations, 1996 is exempt from capital gains.
- Relaxation to non-residents from deduction of tax at higher rate (except income distributed by mutual fund) in the absence of PAN subject to them providing specified information and documents.
- Tax to be deducted at twice the applicable rate in case of payments to specified person (except non-resident not having permanent establishment in India or person who is not required to furnish the return of income as notified by the Central Government) who has not furnished the return of income for the assessment year relevant to previous year immediately preceding the financial year in which tax is required to be deducted:
 - For which time limit for filing return has expired; and
 - The aggregate of tax deducted at source in his case is Rs. 50,000 or more in the said previous year.
- Additionally, if provisions of section 206AA are also applicable then tax to be deducted at higher of the two rates provided i.e. rate as per section 206AB or section 206AA.

Bonus Stripping: The loss due to sale of original units in the schemes, where bonus units are issued, will not be available for set off; if original units are: (A) bought within three months prior to the record date fixed for allotment of bonus units; and (B) sold within nine months after the record date fixed for allotment of bonus units. However, the amount of loss so ignored shall be deemed to be the cost of purchase or acquisition of such unsold bonus units.

1. Income Tax Rates

Option A (Old Regime)

For Individuals, Hindu Undivided Family, Association of Persons, Body of Individuals and Artificial juridical persons

Total Income	Tax Rates
Up to Rs. 2,50,000 ^{(a)(b)}	NIL
Rs. 2,50,001 to Rs. 5,00,000 ^{(a)(e)}	5%
Rs. 5,00,001 to Rs. 1,00,00,000 ^(d)	20%
Rs. 10,00,001 and above ^{(c)(d)}	30%

- (a) In case of a resident individual of the age of 60 years or above but below 80 years, the basic exemption limit is Rs. 300,000.
 (b) In case of a resident individual of age of 80 years or above, the basic exemption limit is Rs 500,000.
 (c) Rate of surcharge
 • 37% on base tax where specified income exceeds Rs. 5 crore;
 • 25% where specified income* exceeds Rs. 2 crore but does not exceed Rs. 5 crore
 • 15% where total income exceeds Rs. 1 crore but does not exceed Rs. 2 crore; and
 • 10% where total income exceeds Rs 50 lakhs but does not exceed Rs. 1 crore

In case of AOP, consisting of only companies as its members, the rate of surcharge not to exceed 15%.

*Specified income – Total income excluding income by way of dividend on shares and short term capital gains in case of listed equity shares, equity oriented mutual fund units, units of business trust and long-term capital gains.

Marginal relief for such person is available.

- (d) Health and Education cess @ 4% on aggregate of base tax and surcharge.
 (e) Resident Individuals having total income not exceeding Rs. 500,000 can avail rebate of lower of Rs. 12,500 or actual tax liability whichever is lower.

Option B (New Regime)

For Individuals, Hindu Undivided Family, Association of Persons, Body of Individuals and Artificial juridical persons

Total Income	Tax Rates
Up to Rs. 3,00,000	NIL
Rs. 3,00,001 to Rs. 6,00,000	5%
Rs. 6,00,001 to Rs. 9,00,000	10%
Rs. 9,00,001 to Rs. 12,00,000	15%
Rs. 12,00,001 to Rs. 15,00,000	20%
Above Rs.15,00,000	30%

a) For adopting Option B, most of the deductions/exemptions such as section 80C, 80D, etc. are to be foregone. However, standard deduction of Rs. 50,000 against salary income is proposed to be allowed under Option B. The aforesaid regime is optional. Accordingly, persons as mentioned above have the option to be taxed under either of the options. Option B once exercised can be changed in subsequent years (not applicable for business income).

(b) Resident individuals having total income not exceeding Rs. 7,00,000 can avail rebate of 25,000 or actual tax liability whichever is lower.

(c) Rate of surcharge:

- 25% where specified income* exceeds Rs. 2 crore
- 15% where total income exceeds Rs. 1 crore but does not exceed Rs. 2 crore; and
- 10% where total income exceeds Rs 50 lakhs but does not exceed Rs. 1 crore.

In case of AOP, consisting of only companies as its members, the rate of surcharge not to exceed 15%.

*Specified income – Total income excluding income by way of dividend on shares and short term capital gains in case of listed equity shares, equity oriented mutual fund units, units of business trust and long-term capital gains.

2. Securities Transaction Tax (STT)

STT is levied on the value of taxable securities transactions as under:

Transaction	Rates	Payable by
Purchase/ Sale of equity shares (delivery based)	0.1%	Purchaser/Seller
Purchase of units of equity oriented mutual fund	NIL	Purchaser
Sale of units of equity oriented mutual fund (delivery based)	0.001%	Seller
Sale of equity shares, units of business trust, units of equity oriented mutual fund (non-delivery based)	0.025%	Seller
Sale of an option in securities	0.0625%	Seller
Sale of an option in securities, where option is exercised	0.125%	Purchaser
Sale of an futures in securities	0.0125%	Seller
Sale or surrender or redemption of a unit of an equity oriented fund to an insurance company, on maturity or partial withdrawal, with respect to unit linked insurance policy issued by such insurance company on or after the first day of February, 2021	0.001%	Seller
Sale of units of an equity oriented fund to the Mutual Fund	0.001%	Seller
Sale of unlisted equity shares and units of business trust under an initial offer	0.2%	Seller

3. Special rates for non-residents as per domestic provisions

(1) The following incomes in the case of non-resident are taxed at special rates on gross basis:

Transaction	Rates ^(a)
Dividend	20%
Interest received on loans given in foreign currency to Indian concern or Government of India (not being interest referred to in section 194LB or section 194LC)	20%
Income received in respect of units purchased in foreign currency of specified Mutual Funds / UTI	20%
Royalty or fees for technical services ^(b)	10%
Interest income from a notified infrastructure debt fund, specified loan agreement, specified long term bonds, rupee denominated bonds(c) and business trust	5%
Interest on FCCB, Dividend on GDRs	10%

(a) These rates will be further increased by applicable surcharge and health and education cess.

(b) In case the non-resident has a Permanent Establishment (PE) in India and the royalty / fees for technical services paid is effectively connected with such PE, the same is taxable at 40% (plus applicable surcharge and health and education cess) on net basis.

(c) Interest payable to a non-resident in respect of monies borrowed by any Indian company or business trust from a source outside India by way of issue of rupee denominated bond during the period 17 September 2018 to 31 March 2019 is exempt from tax.

(2) Tax on non-resident sportsmen or sports association on specified income @20% plus applicable surcharge and health and education cess.

4. Capital Gains

Transaction	Short term capital gains ^(a)	Long term capital gains ^{(a)(b)}
Sale transactions of equity shares/ unit of an equity oriented fund which attract STT	15%	10%*
Sale transactions of units of specified mutual fund acquired on or after 1st April 2023	Slab rates as mentioned below	NA
Sale transaction other than mentioned above:		
Individuals (resident and non-residents)	Progressive slab rates	20% / 10% ^{(b)(c)}
Firms	30%	
Resident companies	30%/25% ^(a) /22% ^(a) /15% ^(a)	
Overseas financial organizations specified in section 115AB	40% (corporate) 30% (non corporate)	10%
FII's	30%	10%
Foreign companies other than ones mentioned above	40%	20% / 10% ^(c)
Local authority	30%	20% / 10%
Co-operative society rates	Progressive slab or 22% ^(a) / 15% ^(a)	

- Income-tax at the rate of 10% to be levied on long-term capital gains exceeding Rs. 1 lakh (without indexation benefit and foreign exchange fluctuation)
- (a) These rates will further increase by applicable surcharge & health and education cess.
- (b) Income-tax rate of 20% with indexation and 10% without indexation.
- (c) Long term capital gains arising to a non-resident from transfer of unlisted securities or shares of a company, not being a company in which the public are substantially interested, subject to 10 per cent tax (without benefit of indexation and foreign currency fluctuation).
- (d) If total turnover or gross receipts in the financial year 2021-22 does not exceed Rs. 400 crores.
- (e) This lower rate is optional and subject to fulfillment of certain conditions as provided in section 115BAA.
- (f) This lower rate is optional for companies engaged in manufacturing business (set-up & registered on or after 1 October 2019) subject to fulfillment of certain conditions as provided in section 115BAB.
- (g) Co-operative societies have the option to be taxed at progressive slab rates or 22% subject to fulfillment of certain conditions as provided in section 115BAD.
- (h) This lower rate is optional for co-operative societies engaged in manufacturing or production business (set-up & registered on or after 1 April 2023) subject to fulfillment of certain conditions as provided in section 115BAE.

5. Personal Income-tax Scenario

Additional Tax burden/ (Savings) (%) in Option B	-	(100%)	(16.67%)	(25.00%)	(30.23%)	(4.45%)	(2.09%)	(1.06%)	(9.15%)

Resident senior citizen (age 80 years and above)	Total Income								
	475,000	675,000	825,000	1,000,000	1,500,000	5,650,000	11,150,000	21,150,000 #	51,150,000 #
Tax in FY 2023-24 (Option A)*	NIL***	5,200	36,400	72,800	213,200	1,658,800	3,707,600	7,930,000	21,514,480
Tax in FY 2023-24 (Option B)**	NIL***	NIL***	39,000	62,400	156,000	1,595,880	3,641,820	7,858,500	19,558,500
Additional Tax burden/ (Savings) in Option B	-	(5,200)	2,600	(10,400)	(57,200)	(62,920)	(65,780)	(71,500)	(1,955,980)
Additional Tax burden/ (Savings) (%) in Option B	-	39.29%	7.14%	(14.29%)	(26.83%)	(3.79%)	(1.77%)	(0.90%)	(9.09%)

* For the purpose of tax calculation under Option A, ad hoc deduction of INR 150,000 has been claimed. The ad hoc deduction is only illustrative in nature. Basis actual deduction, the tax amount will vary.

** For purpose of tax calculation under Option B, no exemption/ deductions have been claimed and it has been proposed that enhanced surcharge of 37% should not apply.

*** NIL tax on account of rebate under section 87A.

If the said taxable income includes income by way of dividend on shares and short-term capital gains in case of listed equity shares, equity oriented mutual fund units, units of business trust and long-term capital gains, then enhanced surcharge of 37% and 25% would not be applicable and accordingly effective tax rate would be lower.

Disclaimer: The information set out above is included for general information purposes only and does not constitute legal or tax advice. In view of the individual nature of the tax consequences, each investor is advised to consult his/her own tax consultant with respect to specific tax implications arising out of their participation in the Scheme. Income Tax benefits to the mutual fund & to unit holder is in accordance with the prevailing tax laws as certified by the mutual funds tax consultant. Any action taken by you based on the information contained herein is your responsibility alone. Mirae Asset Mutual Fund will not be liable in any manner for the consequences of such action taken by you. The information contained herein is not intended as an offer or solicitation for the purchase and sales of any schemes of Mirae Asset Mutual Fund.

Mutual Fund investments are subject to market risks, read all scheme related documents carefully.

■ Average Maturity:

Average Maturity of the securities in scheme.

■ Beta:

Beta of a portfolio is a number indicating the relation between portfolio returns with that of the market index i.e. it measure the volatility, or systematic risk, of a portfolio in comparison to the market as a whole.

■ Indexation Benefit:

- Long Term Capital Gains (holding period of over 3 years) from other than equity oriented and specified mutual funds are taxed at 20% plus applicable surcharge and cess with the benefit of indexation.
- Government notifies Cost Inflation Index (CII) for each financial year taking into consideration the prevailing inflation levels.
- The cost of acquisition for computation of tax is adjusted for inflation using CII, thereby reducing the capital gains from tax perspective.

■ Macaulay Duration (Duration):

Macaulay Duration (Duration) measures the price volatility of fixed income securities. It is often used in the comparison of interest rate risk between securities with different coupons and different maturities. It is defined as the weighted average time to cash flows of a bond where the weights are nothing but the present value of the cash flows themselves. It is expressed in years/days. The duration of a fixed income security is always shorter than its term to maturity, except in the case of zero coupon securities where they are the same.

■ Modified Duration:

A formula that expresses the measurable change in the value of a security in response to a change in interest rates. Modified duration of portfolio can be used to anticipate the change in market value of portfolio for every change in portfolio yield.

■ Portfolio Turnover Ratio:

Portfolio Turnover Ratio is the percentage of a fund's holdings that have changed in a given year. This ratio measures the fund's trading activity, which is computed by taking the lesser of purchases or sales and dividing by average monthly net assets.

■ Portfolio Yield (Annualized Portfolio YTM*):

Weighted average yield of the securities in scheme portfolio. *In case of semi annual YTM, it will be annualized.

■ Risk Free Return:

The theoretical rate of return of an investment with safest (zero risk) investment in a country.

■ Sharpe Ratio:

Sharpe Ratio is a risk to reward ratio, it measures portfolio returns generated in excess to the investment in risk-free asset, for per unit of total risk taken. While, positive Sharpe ratio indicates, portfolio compensating investors with excess returns (over risk-free rate) for the commensurate risk taken; negative Sharpe ratio indicates, investors are better off investing in risk-free assets.

■ Specified Mutual Fund:

Specified mutual fund" means mutual fund where not more than 35 per cent of its total proceeds is invested in the equity shares of domestic companies.

■ Standard Deviation:

A statistical measure that defines expected volatility/risk associated with a portfolio. This explains the variation/deviation from the average returns delivered by the portfolio. A higher standard deviation means higher volatility (risk) and a lower standard deviation means lower volatility.

■ Total Expense Ratio:

Total expenses charged to scheme for the month expressed as a percentage to average monthly net assets.

■ Tracking Error:

Tracking error indicates how closely the portfolio return is tracking the benchmark Index return. It measures the deviation between portfolio return and benchmark index return. A lower tracking error indicates portfolio closely tracking benchmark index and higher tracking error indicates portfolio returns with higher deviation from benchmark index returns.

Key Features	Mirae Asset Hybrid Equity Fund	Mirae Asset Balanced Advantage Fund	Mirae Asset Equity Savings Fund	Mirae Asset Arbitrage Fund
Type of Scheme	Aggressive Hybrid Fund - An open ended hybrid scheme investing predominantly in equity and equity related instruments	Balanced Advantage Fund - An open-ended Dynamic Asset Allocation Fund	Equity Savings Fund - An open ended scheme investing in equity, arbitrage and debt	Arbitrage Fund - An open ended scheme investing in arbitrage opportunities
Investment Objective	The investment objective of the Scheme is to generate capital appreciation along with current income from a combined portfolio of predominantly investing in equity & equity related instruments and balance in debt and money market instruments. The Scheme does not guarantee or assure any returns.	The investment objective of the scheme is to capitalize on the potential upside of equities while attempting to limit the downside by dynamically managing the portfolio through investment in equity & equity related instruments and active use of debt, money market instruments and derivatives. However, there is no assurance or guarantee that the investment objective of the scheme will be realized.	The investment objective of the scheme is to provide capital appreciation and income distribution to the investors by using equity and equity related instruments, arbitrage opportunities, and investments in debt and money market instruments. The Scheme does not assure or guarantee any returns.	The investment objective of the scheme is to generate capital appreciation and income by predominantly investing in arbitrage opportunities in the cash and derivative segments of the equity markets and the arbitrage opportunities available within the derivative segment and by investing the balance in debt and money market instruments. There is no assurance or guarantee that the investment objective of the scheme will be realized

\$ For computation of since inception returns (%) the allotment NAV has been taken as ₹1000.00 for MACMF, MASF MAOF, & MAMMF and ₹10.00 for all other Schemes. In case, the start / end date of the concerned period is a non-business date (NBD), the NAV of the previous date is considered for computation of returns.

Returns (%) for less than 1 year calculated on simple annualized basis. The calculations of returns shall assume reinvestment of all payouts at the then prevailing NAV.

CAGR - Compounded Annualised Growth returns. NAV (per unit) is at the end of the period.

**Standard benchmark prescribed as per the applicable SEBI circular.

For MASF the returns are for Regular Savings Plan - Growth Option. Returns for others scheme are provided for Regular Plan Growth Option. Load is not considered for computation of return.

Mirae Asset Nifty 100 Low Volatility 30 ETF, Mirae Asset Nifty SDL June 2028 Index Fund, Mirae Asset Nifty 8-13 yr G-Sec ETF, Mirae Asset Silver ETF, Mirae Asset Nifty Bank ETF, Mirae Asset Nifty 1D Rate Liquid ETF and Mirae Asset Multicap Fund are in existence for less than 6 Month, as per SEBI regulation performance of the schemes has not been shown.

^Basis last rolling 12 months.

IDCW is gross IDCW. As per current Income Tax Rules, for financial year 2021-22 IDCW under equity scheme is tax free in the hands of investors, whereas for IDCW under Debt schemes applicable statutory levies, if any, needs to be adjusted by the AMC. The fiscal rules / tax laws are subject to change. For further details, please refer to the section titled "Taxation" in the Statement of Additional Information of Mirae Asset Mutual Fund. In view of the individual nature of tax consequences, each investor is advised to consult his / her professional tax advisor.

Statutory Details: Sponsor: Mirae Asset Global Investments Company Limited. Trustee: Mirae Asset Trustee Company Private Limited; Investment Manager: Mirae Asset Investment Managers (India) Private Limited.
