As per clause 1.14.1.2 of SEBI Master Circular dated June 27, 2024 such changes in the investment pattern will be for short term and for defensive consideration only. From time to time, the fund manager may also participate in debt and debt related securities up to 35% of its total assets for optimal portfolio construction.
	The Investment Manager will select equity securities on a bottom–up, stock–by–stock basis. The focus would be to build a portfolio of strong growth companies, reflecting our most attractive investment ideas at all points of time.
	The universe of stocks will comprise majorly of companies having robust business models, enjoying sustainable competitive advantages as compared to their competitors and have high return ratios.
	The Fund Manager will create a robust portfolio to avoid concentration risk and liquidity risk. The Fund Managers will monitor the trading volumes in a particular stock before investment to avoid liquidity risk.
	The scheme may also invest in listed/unlisted and/or rated debt or money market securities, provided the investments are within the limits indicated in the asset allocation pattern and various SEBI circulars issued from time to time.

These may be taken to hedge the portfolio, rebalance the same or to undertake any other strategy as permitted under the SEBI Regulations
	Debt:
	The Scheme will also invest in debt securities and money market instruments.
	• The credit quality of the portfolio will be maintained and monitored using in-house research capabilities as well as inputs from external sources such as independent credit rating agencies.
	• The investment team will primarily use a top down approach for taking interest rate view, sector allocation along with a bottom up approach for security/instrument selection.
	• The bottom up approach will assess the quality of security/instrument (including the financial health of the issuer) as well as the liquidity of the security.
	• Investments in debt instruments carry various risks such as interest rate risk, reinvestment risk, credit risk and liquidity risk etc. Whilst such risks cannot be eliminated, they may be minimized through diversification.
	Risk is an inherent part of the investment function. Effective risk management is critical to fund management for achieving financial soundness. Investments by the Scheme shall be made as per the investment objective of the Scheme and provisions of SEBI (MF) Regulations. AMC has incorporated adequate safeguards to manage risk in the portfolio construction process. Risk control would involve managing risk in order to keep it in line with the investment objective of the Scheme. The risk control process involves identifying & measuring the risk through various Risk Measurement Tools like but not limited to calculating risk ratios, tracking error etc. The AMC has incorporated all the investment restrictions as per SEBI guidelines and "soft" warning alerts at appropriate levels for preemptive monitoring. The system enables identifying & measuring the risk through various risk ratios, average duration and analyses the same so as to act in a preventive manner.
	The risk control measures for managing the debt portion of the scheme are:
	<ol> <li>Monitoring risk adjusted returns performance of the fund with respect to its peers and its benchmark.</li> <li>Tracking analysis of the fund on various risk parameters undertaken by independent fund research / rating agencies or analysts and take corrective measures if needed.</li> </ol>
	<ol> <li>Credit analysis plays an important role at the time of purchase of bond and then at the time of regular performance analysis. Our internal research anchors the credit analysis. Sources for credit analysis include Capital Line, CRISIL, ICRA updates etc. Debt ratios, financials, cash flows are analysed at regular intervals to take a call on the credit risk.</li> <li>We define individual limits for G-Sec, money market instruments, MIBOR linked</li> </ol>
	debentures and corporate bonds exposure, for diversification reasons. The Scheme does not propose to underwrite issuances of securities of other issuers.
