MARKET OUTLOOK^

- In October 2024, the Nifty 50 fell by 6.2%, its largest monthly loss since 2020, impacted by factors such as foreign outflows driven by China's economic recovery, weak quarterly earnings, geopolitical tensions, and U.S. election uncertainty.
- India was the worst-performing global market, while Japan, Taiwan, and Thailand saw gains.
- On the domestic front, India's manufacturing Purchasing Manager Index rose, but inflation hit a nine-month high at 5.5%, and GST collections showed slower growth.
- Corporate earnings growth has softened due to commodity pressures and lower demand, but festive demand was encouraging with strong UPI and e-commerce activity.
- Despite near-term challenges, India's long-term growth outlook remains positive, driven by robust fiscal health, resilient corporate balance sheets, and a focus on capex and rural recovery in the coming months, though global risks continue to weigh on sentiment.

Past Performance may or may not be sustained in future.
