Why Mirae Asset New Age Consumption ETF and Fund of Fund?

- India is currently 5th Largest Economy in the world and is expected to be the 3rd largest economy in the world by Financial Year 2030-2031. Consumption is expected to play a pivotal role in the same. (Slide 2)
- India has one of the best demographic dividend with median age of 29yrs and 2/3rd of population under the age of 35. Middle class comprises ~20% of total Households in India and this is expected to double to >40% over the next decade (Slide 9)
- India has recently surpassed \$2,000 per capita which has been an inflection point for acceleration in discretionary demand as the basic needs are already met. (Slide 3)
- With rise of social media and growing influence of technology, aspirational Indians are now spending more, moving their consumption from unorganized to organized markets, favoring premium categories and often relying on credit.
- Nifty India New Age Consumption Index is designed to represent industries/sector that can be potentially aligned with rise in trend of spending more on discretionary items.
- The index aims to captures companies that cater to the discretionary and aspirational spending of Indian consumers.
